## TECHNICAL SPECIFICATION

- 1) Kirloskar make, liquid cooled model 6K1080TAG2 engine developing 200 hp @ 1500 RPM coupled with 160 KVA/128 KW, Kirloskar Green alternator 3 Ph, 415 Volt, 0.8PF with manual control panel, 300 ltr fuel tank, battery with leads with Acoustic enclosure (CPCB approved) and standard accessories.

DG set dimension – MM Lp4000W-1500 (with silencer) H-1915

### ACOUSTIC ENCLOSURE:

KIRLOSKAR GREEN Acoustic enclosure shall be powder coated and fabricated out of 16 SWG CRCA MS sheet. The silent canopy shall be of nut bolt type construction. Critical processes of punching is done on CNC machines to maintain dimensional accuracy of holes within 0.1 mm. Powder coating is done after seven-tank surface preparation process of sheet metal. Canopy panel and doors shall have inside lining of world class higher density acoustic FIRE-RETARDANT foam (confirming to BS 4735/BIS 7888). Four hinged doors with rubber binding and stainless steel door locks shall be provided to canopy. The hot chamber of the canopy is properly insulated by mineral wool and aluminium foil to prevent excess heat radiation on the engine and safe for operator. Sound level of KG Canopy as per CPCB norms will be 75 dbs at 1 meter distance from the enclosure surface [average] in an open installation [free field condition], db level may vary according to place of installations.

### BASE FRAME:

Base frame is fabricated in sheet metal. The base frame is rugged in construction and designed for KOEL engine and KG brush less alternator close coupled, with cross members mounted on AVM. The base frame shall have provision for mounting of acoustic, enclosure & control panel on it. The base frame is having provision of lifting hook for convenient lifting of complete set, i.e., along with canopy, engine and alternator.

### SURFACE TREATMENT - PAINTING:

The enclosure surface shall be suitably treated for degreasing, de-rusting and phosphating. The canopies are passed through seven-tank treatment thoroughly.

### FUEL TANK:

Removable fuel tank with locks shall be fabricated out of 14SWG CRCA MS sheet and is part of base frame. It is duly painted and fitted with inlet and outlet connections and electronical fuel gauge. Fuel tank can be easily removed for cleaning or any maintenance.
