FATHIMA

AIM

**PROVIDE EDUCATIONAL AND REHABILITATION SERVICES TO THE
PERSONS WITH DISABILITIES**

OBJECTIVES

In order to meet the needs of students with visual impairment, Braille materials, including those with or without tactile graphics, talking books with human voice, and large print resources in a variety of subjects, should be produced.

To deliver subtitled instructional recordings with gesture-based communication for students with hearing weakness

To produce Orthotics and Prosthetics devices for students with Physical Disabilities

To deliver multimedia based computer assisted educational materials for students with Disabilities.

To organize need based trainings, conference, seminars and workshops etc. for students with disabilities, Pre & In service teachers and parents.

To establish connections with national and international institutes to strengthen the supports provided to students with disabilities.

ABOUT

Centre for Multimodal Material Production for differently Abled was started in the year 2013 under the Government of Tamilnadu Scheme.

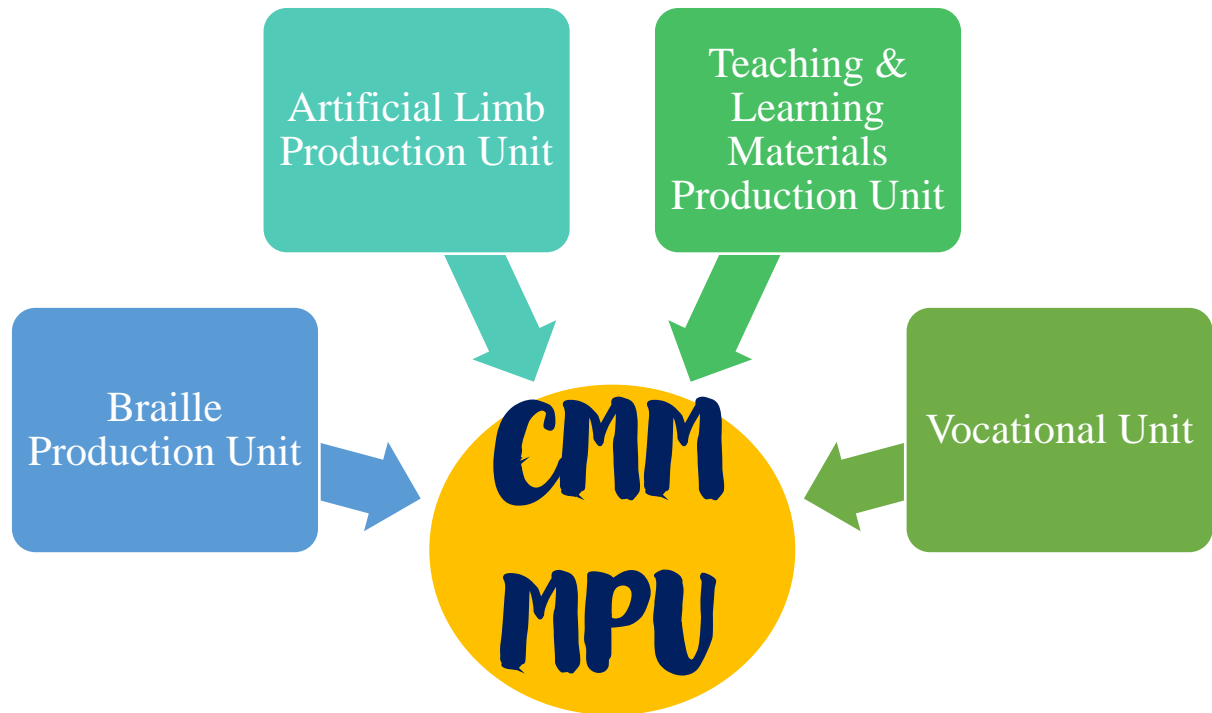

Centre started to prepare multimodal materials for students with various disabilities.

This centre also started Alagappa University Resource School for Differently Abled in the year 2014.

Alagappa University resource school for differently abled extending special education services to children with special needs and extending services to the community. The Resource school extends physiotherapy and occupational therapy for the children with disabilities, organize medical camps for identification of children with various disabilities and provide educational assistive and adaptive devices available in the department. Students who are autism, Down syndrome, Cerebral Palsy, and intellectual impairment from the age of 3 yrs to 30 yrs are enrolled and getting benefits of therapies and educational services from our resource school which is within our campus. Full time Physiotherapist, special educators and care takers are extending excellent service to those students effectively and efficiently.

This centre prepares teaching learning materials to serve differently abled in schools and colleges. Especially talking books, large print materials and tactile teaching learning materials are prepared by the student teachers to serve students with visual impairment. Alagappa University contributes to the welfare of students with disabilities in a multidimensional way. Diagnose and assess for labeling the children with disabilities
